Date Submitted: 17/9/18

Feedback:

A well written essay that draws on several perspectives to answer the question. Good use of formal language, although sometimes the meaning is lost. Good use of evidence and citations.
A nice critique!

Suggestions for improvement:

- Define key concepts more clearly - sometimes complex ideas are better expressed by simple, direct language.
- A stronger introduction would help explain the question, why it is important and how you will answer it.
